Bill,

We request that you agree to an extension of our response deadline until Monday. We will agree to a reciprocal extension of a reply. As you know, we have been seeking discovery from USADA relating to the motion to dismiss. USADA's July 27 production included a very significant document that should have been attached to the motion an exhibit, a July 13, 2012 letter from UCI to USADA concerning USADA's jurisdiction that is critical to resolution of the motion. It is fundamentally unfair to produce that critical document on July 27 and demand that a response to a motion that raises factual issues be filed one week later. In addition, we require additional time because, despite our diligent efforts, we have not yet obtained all the affidavits we believe the Court should consider from relevant witnesses, because necessary individuals are in London for the Olympics.

Please let me know by 9 pm central tonight whether USADA opposes an extension until Monday.

**Sean E. Breen**
